

New Go-live Date for New eVA Platform

Good afternoon,

Launching a new platform for a statewide e-procurement solution that handles over \$7.5 billion in spend annually is a huge undertaking and one that cannot be accomplished without close collaboration with many partners. With that in mind, we have decided to set a new go-live date for the modernized eVA platform to May 2, 2022.

After listening to feedback from our users and evaluating where we are in the process, we determined that extra time for training and testing would help ensure a smooth transition. While we are extremely excited to launch the updated eVA software platform, we want to make sure our users feel comfortable with the transition.

eVA as you know it will continue as normal until the transition in May. Thank you for continuing to be great partners as we keep Virginia in the forefront of e-procurement innovation.

Sincerely,
Joseph F. Damico, Director
Department of General Services
